It was designated as outstanding for beauty and design. Only 22 buildings in the U.S., and only four in California, were so honored. Our architect was Wallace Neff.

In spite of the heat, the highest since 1891 when the weather bureau began to operate, the retreat house continued to open retreats each weekend with rather large groups present. The retreat for the first weekend in September opened with a temperature of 110 degrees. Fr. Savage did not seem to mind the heat, and gave an excellent retreat to a good group of men.

EL RETIRO

The summer has been a busy one at El Retiro. The retreats have been unusually well attended for this season of the year, registering such numbers at 106, 100, 85, 62, and always remaining well above 50.

Nine men made an eight day retreat under Fr. O'Mara. The second such retreat, scheduled for October, is already over-subscribed. Consideration is being given to holding three such retreats in 1956.

Fr. Oliger conducted a special retreat for a small group of members of the Gentlemen's Sodality of St. Ignatius Church, concurrently with one of the regular retreats.

Fr. Maher conducted three retreats for the priests of the Archdiocese of Milwaukee in June.

All summer calls at Groveland Camp for Boys, at Cherry Creek construction site, at Woodside, Los Altos, and Menlo Park, together with Sisters' retreats and the regular work of El Retiro, required the services of every priest available on successive weekends.

The major improvement of the summer was the recarpeting of the chapel. The resultant improvement is noteworthy in the tone and general appearance of the aisles and sanctuary.

A booklet, the gift of one of the retreatants, with illustrations of our Mysteries of the Rosary, along with suitable prayers arranged by Fr. O'Mara, has just gone to press. A copy will be given each retreatant in remembrance of his stay at El Retiro.

Only two seminarians for the Monterey-Fresno diocese failed to return. The total enrollment is 42: 13 in the two years of college, and 29 in the first three years of high school. The present second year college class will be the first graduating class since the opening of the college division.

Levelling off the approach to Pereira Hall, 40,000 cubic yards of dirt were removed during the summer, and three 50-foot parking lanes were paved to accommodate 350 cars for student parking.
